"Advanced Python Programming for Everybody"

Assignment 2 "Multithreading and Asynchronous Programming in Python"

Description

Convert the procedure asynchronous file asyncio_tasks_parallel.py to object multithreading file. Follow the Instructor's code file threading_module.py as an example.

Date Due

May 02, 2018

Recommendation

1. New Python OOP programming ideas are always welcome.

2. Zip your files as LastName_Assign2.zip and email it to Ernest (ebonat@15itresources.com).
